S I R:

The above-identified patent application was filed in the United States Patent and Trademark Office on November 17, 2003. It is a divisional application of U.S. serial number 10/371,088 filed on February 20, 2003 and now Patent Number 6,727,235 which issued on April 27, 2004.

To date, applicant has received the official Filing Receipt and the Notice Of Publication Of Application.

However, as it is almost two years since the application was filed, applicant is anxious to know when the first office action is expected to issue in this case.

Respectfully submitted,

Eugene Lieberstein
